

Invitation:

Second Virtual Graduate Training for Sustainable Energy Development

Approaching Sustainable Energy Development in East African Countries through an interdisciplinary project on Microgrids

September 5th to 9th, 2022

After a successful Graduate Training with slightly below 300 active participants in June 2021, we are happy to announce a Second Virtual Graduate Training to be held this year.

Participation is free.

Program outline:

The interdisciplinary program will have contributions from professors, researchers and experts from the various fields and will include:

- an introduction to the A:RT-D Grids project and its current research results
- sustainable energy aspects focussing on sustainable engineering, sustainable community perspectives, sustainable economics, gender and conflict perspectives, didactics and education for sustainable development
- expert presentations from professionals from the various fields
- a workshop on a designed case including interdisciplinary sustainable energy perspectives for establishing a microgrid

There is a **"Call for Contributions"**, where graduate students and practitioners will be given the chance to share their related current research topic and their relevant professional experiences. Interested persons can apply **online via this form**.

Prior registration is required via the registration form by August 24th, 2022.

An internet-enabled communication device is required to ensure consistent participation. Access to the virtual platform will be given in advance. Certificates will be awarded for full participation. For further information on the A:RT-D Grids project please visit the project website. We look forward to meeting you at the event.

Best regards,
the **A:RT-D Grids Team**

Key dates

- Graduate Training date: September 5th to 9th, 2022
- Deadline date for the online registration: August 24th, 2022
- Registration - Link: **Online Registration Form**
- Application "Call for Contributions" - Link: **Online Application Form**
- "Call for Contributions" application deadline: July 15th, 2022
